

MARCH GARDEN OF THE MONTH – by Sandy Solar

The home of Joe and Carolyn Wilbourn, at 201 Woodlawn, was chosen for its neat and clean landscape highlighted with freshly mulched garden beds. An attractive spiral sculptured cedar creates a focal point to the front entrance to the home. The gardens include Sweet Olives, Sasanquas, Knock Out roses, Day Lilies, Easter Lilies, Azaleas, Agapanthus, and Crape Myrtles. All should be in full bloom soon to make a lovely display of colorful florals.

We thank the Wilbourns for all their efforts and for this beautiful addition to our neighborhood.
