

MAY 2022 GARDEN OF THE MONTH

By Sandy Solar

The home of **Nancy Fisher**, 917 Morgan Bluff Road, was chosen as Magnolia Forest Garden of the Month for May 2022. Garden Club judges, **Betty Rose** and **Sandy Solar**, chose this home because of the overall neat and clean appearance of the landscaping. As you drive up to the home, your eyes are drawn to the very large pot of purple petunias in full bloom and the two very large and healthy-looking Mother-in-law plants flanking both sides of the entrance. The well-maintained lawn and landscaped gardens included Dwarf Nandina, Shishi Sasanqua, Liriope, Azaleas, Boxwoods and Sago Palms. And all of the gardens were freshly mulched which made the plants appear even more attractive.

Congratulations Nancy and thank you for adding to the beauty of our Magnolia Forest Subdivision!
