

Magnolia Forest Garden Club Garden of the Month for October 2024

The home of Carroll and Lenny Knowles at 401 Ormond Drive was selected as Garden of the Month for October 2024 by judges Darlene Fuller and Betty Rose of the Magnolia Forest Garden Club. The branching pyracantha at the entrance is popping with orange berries, perfect for fall. A delight to view, as the berries will turn red for the coming holiday season. The garden bed under this bush has variegated Aztec grass and Encore azaleas. The neatly trimmed Japanese Yews, lorapetalums and azaleas in the bed to left of the entrance offers variations of color and texture. Also providing seasonal splashes of color are Camelias, Shi-Shi Sasanquas, and crepe myrtles. These plants surround the 3-tier fountain. The fountain gives an inviting sound of splashing water as if saying “Welcome to My Home”.
